

HFEL20" SERIES

20" Filter Housing Series

High Flow and Extended Life Cartridge Housing.

The Filter Guy
HFEL20" SERIES

Filter Housings offer the versatility to meet all of your large-capacity filtration needs, including high-flow and heavy sediment applications. The extra large housings allow for greater cartridge capacity, reducing the number of vessels required for high flow-rate applications.

The HFEL20" SERIES

A high capacity filter housing for larger flow rates, suit multiple choices of cartridges.

- Town water, rural lifestyle and commercial applications.
- Features double O-ring seals for maximum durability.
- Ribbed design provides a robust housing for years of trouble free service.
- Single, Twin, and Triple housing with wall and stand rack for quick and easy installation.
 - Pressure gauges standard inclusion with every set.
 - Brass thread inserts for strong tight leak free design.
